Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1, 4, 6 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S.

Patent No. 4,767,416 to Wolf et al. (hereinafter “Wolf”).

Wolf discloses an outlet portion having an outlet end 16, connection end 26, nozzle shaped channel 25 having an hourglass shape, a channel restriction section 27, expanded channel outlet section 22. See Figure 2.

In reference to claim 4, the channel is conically shaped at the connection end and has a largest diameter at the connection end.

In reference to claim 6, Wolf shows a receptacle 10.

In reference to claim 7, the receptacle has a piston. See Figure 1.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3767

2. Claims 2, 3, 5 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wolf in view of U.S. Patent No. 2,485,184 to Blackman et al. (hereinafter "Blackman").

Wolf discloses the claimed invention as shown above. Wolf, however, neither uses an enlarged portion at the outlet end of the nozzle nor a squeeze bulb nor a flexible material.

Blackman discloses an enlarged diameter at outlet portions for sealing engagement with the user's nostril, flexible material and a squeeze bulb to propel the medicament. See Figures 1-4. It would have been obvious to one of ordinary skill in the art to modify the invention of Wolf by including the enlarged outlet portions and a squeeze bulb to provide an alternative means for propelling the medicament and to provide a means to seal the outlet with the user's nostril.

Response to Arguments

3. Applicant's arguments with respect to claims 1-8 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3767

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
